ZEON ROLLER COVERINGS

Zeon roller coverings are used in textile machines for weaving, processing & finishing. We offer roller coverings in Natural rubber, Synthetic Rubber, Silicone, Cork, Nitrile Rubbers in various surface patterns & thickness for every application. Zeon roller coverings exhibit characteristics of high resistance to abrasion, tensile strength and adherence for efficient and effective performance. Our roller coverings are supplied in roll lengths of 100 meters in various widths like 38mm, 50mm, 75mm, 100 mm etc. Special lengths and widths can also be supplied on request. Apart from our standard range we can offer customised roller coverings (colour, surface pattern, desired elastomer properties) for your requirements.
